

# Visiting Lincoln Park Zoo

**I will need to wear my mask when I visit the zoo. Wearing a mask helps keep me safe from germs. Wearing a mask keeps other people safe from germs too.**

**When I get to the zoo, I will wait in line until it is my turn to go in. I will stay with my group when I am in line.**

**I will notice many people wearing a mask. People wearing a green mask work at the zoo and want to help me. I can still see their eyes.**

**They wear masks to keep everyone safe and healthy.**

**When it is my turn to go in, I will follow signs that let me know where I can go to visit the animals. These signs lead everyone in my group in one direction around the zoo.**

**Fences help me stay on the right path.**

**When moving around the zoo, I stay with my group. I want to have room between me and other groups. This stops germs from spreading and keeps everyone happy.**

**I can still see the animals that are outdoors.  
I may not see animals that choose to be  
indoors.**

**I may need to wait my turn to see an animal.**

**I stay outdoors because buildings are closed. Staying outdoors might make me miss animals in buildings. I can still wave if there are windows.**

**I know the zoo is keeping the animals safe and healthy. There are so many animals to see outdoors.**

**Touching signs and railings might spread germs. Some signs have been covered up to keep people from touching.**

**Instead of touching I will point at or look at things I like or have questions about.**

**I can wash my hands in the bathroom or use hand sanitizer with everyone from my group. It helps everyone stay healthy.**

**If I get hungry, I can get something to eat.  
My group can help me choose what to eat.**

**My food comes wrapped up just for me.**

**My day at the zoo has some new routines. New ways of doing things might bring up lots of feelings. It's OK to have these feelings. I had a safe and fun visit to the zoo.**

**The End**
