

Item	Model/Name	Vendor	Webpage	Comments
Cameras	Bushnell Essential E3	Trail Cam Pro	Camera	This is the updated model from the old TrophyCams that we use. Generally good deals, especially when buying in bulk. Cameras come with nylon straps.
Metal security case	Bushnell Aggressor Security Case	Trail Cam Pro	Case	Recommended to protect cameras from vandalism.
Cable locks	Master Lock Python Cable	Trail Cam Pro	Python	For high security sites. Can be keyed alike, but not with other master lock products.
Cable locks	Master lock general use cable 67D	Taylor Security and Lock.com	Cable	Also can be made by purchasing cable and crimping to make the locks.
Pad lock	Master lock solid brass padlock #4140	1st-in-Padlocks.com	Lock	Any padlock will do. Be sure to key them all alike. The existing key number is 2341.
Batteries	Eneloop AA	Thomas Distributing, Amazon	Batteries	Good deals on bulk orders. Come with cases. We find these to be longer lasting than other rechargeables. You can buy battery chargers here as well.
Battery chargers	Vanson	Battery Junction.com, Amazon	Charger	We bought these to charge other sizes of batteries, but they are more expensive. Any AA NiMh charger should be fine.
2 GB SD Cards	Any	TigerDirect, Amazon, Staples		Often IT departments have access to deals through TigerDirect, Staples, etc. If higher memory SD cards are cheaper, feel free to get those instead.
Mesh screening	Any	Amazon	Screening	For constructing lure pouches.
Zip ties	Any	Amazon	Zip ties	For constructing lure pouches.
Gloves	Any	Any	Gloves	It is recommended that you use gloves to protect your hands while handling FAS discs.

Lure	Predator Survey Discs/Fatty acid discs	USDA Pocatello Supply	None	Email WS.PSD@aphis.usda.gov with your order and they will prepare an invoice. You must go to www.pay.gov to prepay with a cc before they will ship to you. Include the invoice number with your payment. After you submit payment, you will receive a confirmation email. Please copy the PSD email address WS.PSD@aphis.usda.gov in the confirmation. Once they have received payment confirmation we will ship the order. Typically there are 110 discs per can. To transport discs between the office and the field sites, we place discs into small jars sealed with electrical tape, as recommended.
Other Important Items				
Item	Model/Name	Vendor	Webpage	Comments
Nails, Hammer				For nailing lure pouch to tree.
Weatherproof labels	SL552 XK - 2.833" x 1.5"	SheetLabels.com	Labels	For marking cameras with your contact info, camera ID#. Could go slightly smaller than 1.5". We printed in-house but could also have them printed with weatherproof ink for longer use.
Clipboard, pens, blank labeling stickers				For holding permits/datasheets in the field, labeling SD cards with Camera ID.
Backpacks				For carrying all of your supplies.
WD40, deicer				For lubricating locks, getting locks open during the winter.
Leatherman tool				For cutting lure pouches off of chain link fences.
Metal shoe horn				Great tool for getting batteries out of cameras!
Ziplocs				Organizing SD cards, gloves, pouches.
GPS, flagging				For marking camera location.
Step Ladder	Gorilla	Home Depot	Ladder	A 3-step ladder that is light enough to carry to your field sites. It is useful to put cameras up higher and aimed down if you are concerned about vandalism.
