

Animal Habitats

Name _____

There are many types of habitats in the world. Each habitat is home to different animals.

How many animals do you see in each type of habitat? Mark it below. You can estimate with larger groups.

Desert	Wetland	Grassland	Aquatic	Forest
				
Total:	Total:	Total:	Total:	Total:

Circle the habitat you saw most often:

Desert Wetland Grassland Aquatic Forest

Write the name of one animal you saw today:

In what type of habitat do you think it lives?

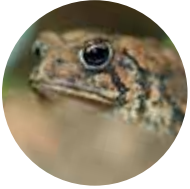

Explain your answer:

Back at School

Name _____

Chicago has a high diversity of animals and habitats.

Draw a line from the Chicago animal to the habitat they call home. Animals may live in more than one habitat.

Wetland

Forest

Grassland

Aquatic

Choose one habitat. What do animals need to survive in this habitat?
