

LINCOLN PARK ZOO.
FOR WILDLIFE. FOR ALL.

Zoo Investigations

If You Give a Gorilla
a Grape
(pre-program narrative)

This is a male western lowland gorilla. He is a great ape. What do you observe about him?

These western lowland gorillas are a mother and her child. What do you observe about them?

**This is where
a family troop
of gorillas
lives at
Lincoln Park
Zoo. What do
you observe
about their
home?**

What do you think western lowland gorillas like to eat?

This is a video of gorillas in their home at Lincoln Park Zoo. It is decorated for World Gorillas Day. What do you see that gorillas might eat?

Western Lowland Gorillas need special care.

- You will learn about how Lincoln Park Zoo provides the best care for western lowland gorillas.
- You will be a scientist and observe gorilla behaviors, social structures, and diets.
- You will decide how to use your tools of observation to better care for gorillas.

Do you have any questions about gorillas? You will have the chance to ask educators from Lincoln Park Zoo.

Meet the Educators

- Matt, Rosie, Nicole, Shauna, and Bill work for Lincoln Park Zoo. They will investigate gorillas with you. They want to answer all your questions.
